P1107	P1100/MR4 Rear Shock Tower	\$15.99
P1110	P1100/MR4 Transponder Mount	\$3.99

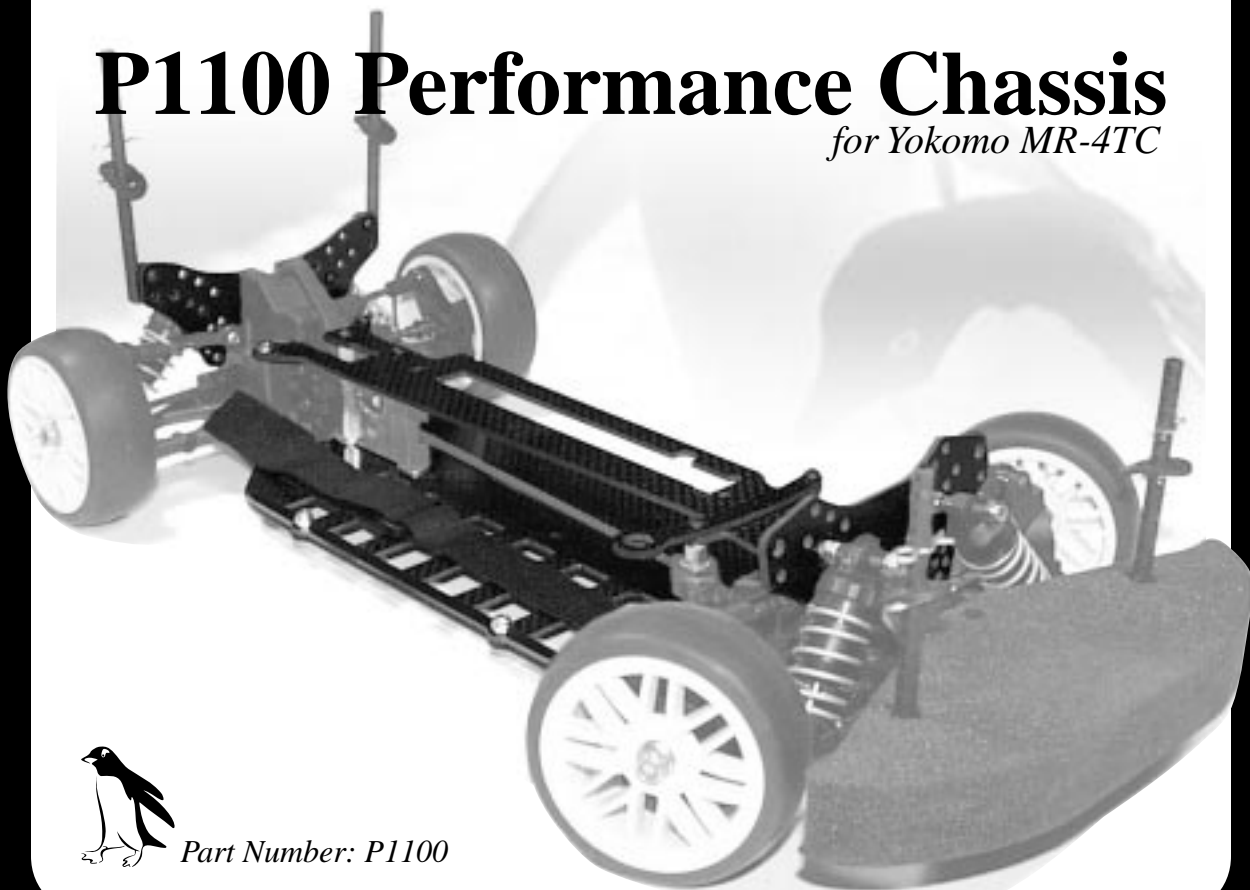

P1100 Replacement Parts List

Roll Center Adjustment - The roll center adjustments affect the natural mechanical ability of the car to roll in the corners. The closer to parallel the upper and lower arms are, the more mechanical roll the vehicle will retain. The P1100 has 7 independent roll centers for the front and the rear of the vehicle to give the advantage of tuning the roll to suit a particular track.

Shock Angle Adjustment - The shock angle adjustment affects how progressively the vehicle rolls into a corner or in transition. The more angled toward the center of the car, the more progressive the dampening and shock rate. This allows for fine tuning of vehicle reaction to the road surface and its irregularities.

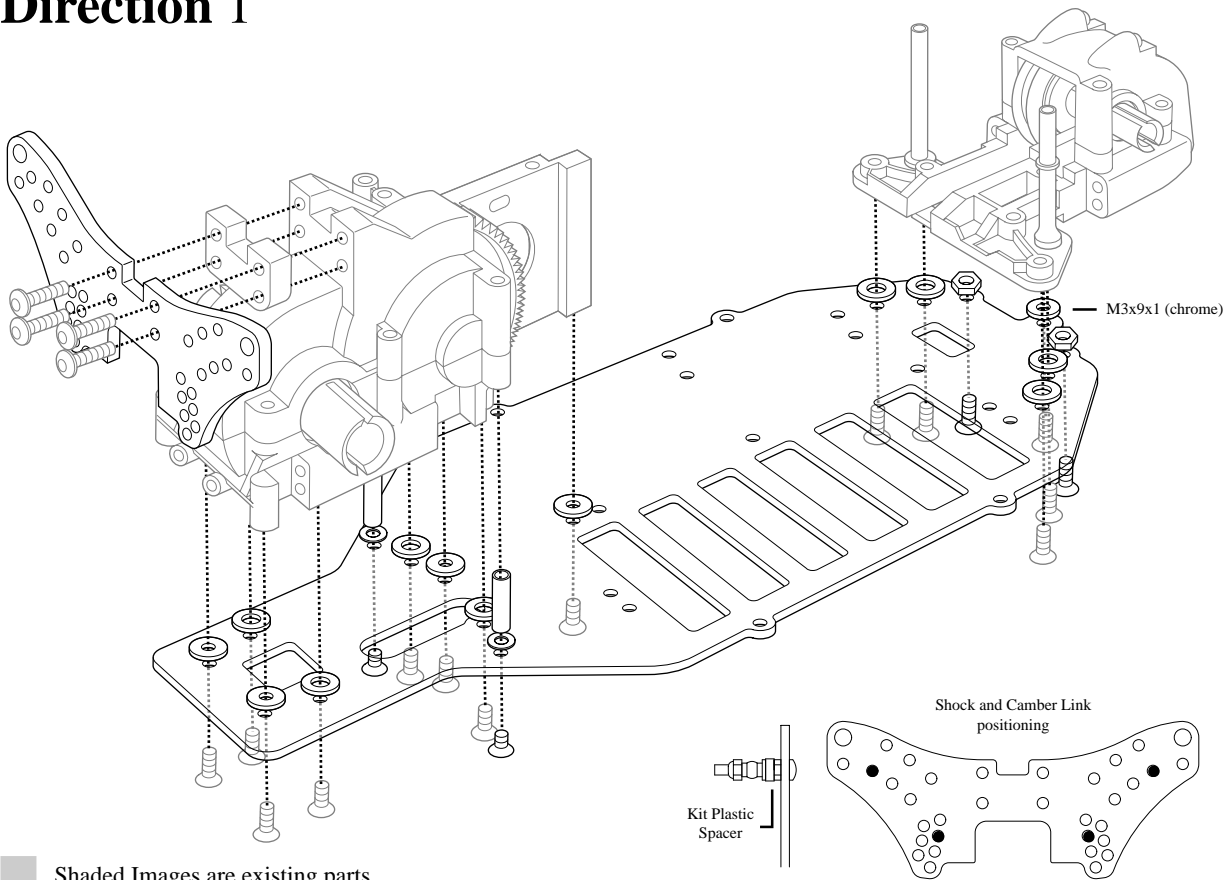

P1100 Performance Chassis

for Yokomo MR-4TC

Part Number: P1100

Direction 1

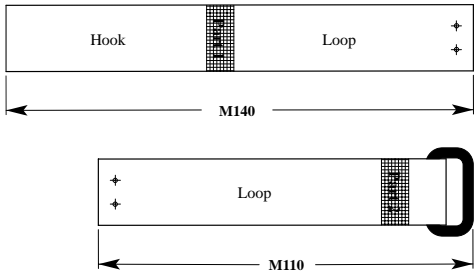

- M3x10 Flathead Screw (x2)
- M3x6 Flathead Screw (x2)
- M3 Jam Nut (x2)
- M4x1x9.5 Washer (x8)
- M3x1x9.5 Washer (x4)
- M3x1x9 Washer (chrome) (x1)
- M3 Washer (x2)

Other parts included:
Graphite Plates (x2)
and Aluminum Post (x2)

Shaded Images are existing parts

- M3x6 Flathead Screw (x4)
- M3x8 Flathead Screw (x2)
- M3 Nyloc Nut (x2)
- M3 Jam Nut (x4)
- M3 Washer (x4)
- M3x6 Panhead Screw (x2)

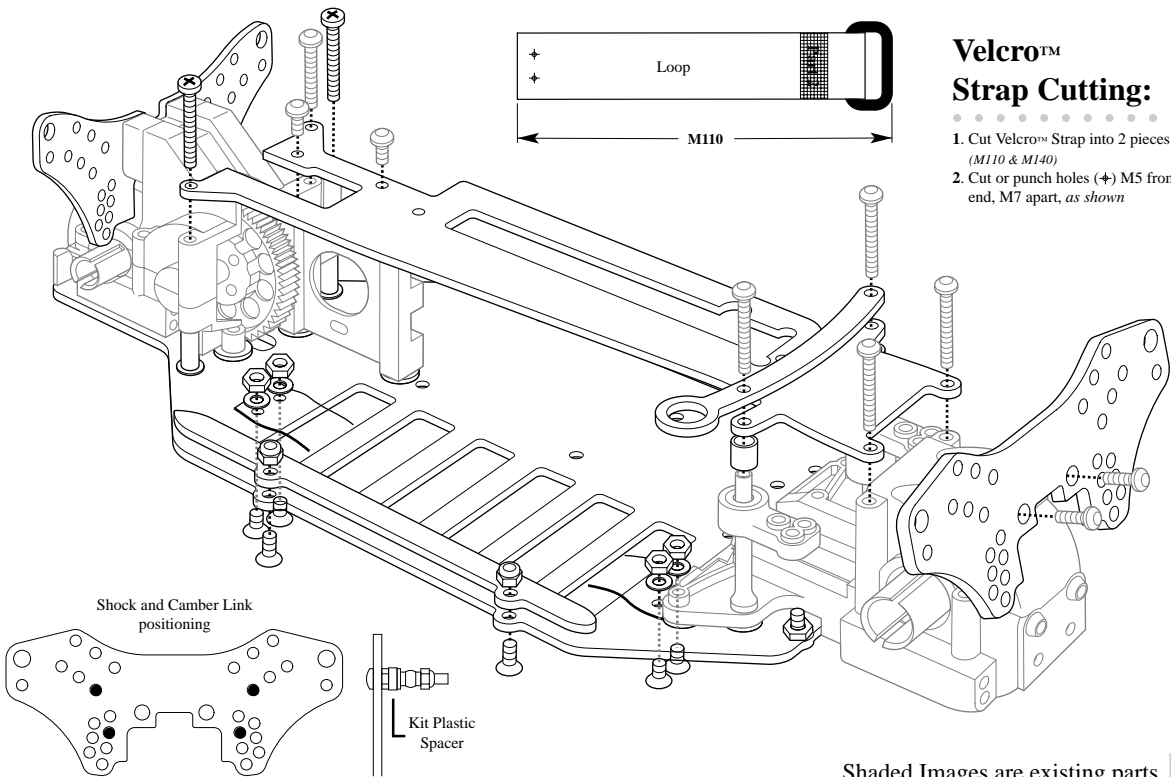

Other parts included:
Graphite Plates (x3)
Fiberglass Plate (x1)
Aluminum Spacer (x2)
and Velcro™ Strap (x1)

Direction 2

Velcro™ Strap Cutting:

1. Cut Velcro™ Strap into 2 pieces (M110 & M140)
2. Cut or punch holes (✚) M5 from end, M7 apart, as shown
